Virginia Regulatory Town Hall
TMDL Public Meeting - Spout Run Watershed (Clarke County)

Department of Environmental Quality Wednesday, 02/24/2010

7:00pm

Boyce Fire Hall, 1 South Greenway Ave., Boyce, VA [] Location accessible to handicapped
[] Interpreter for deaf provided upon request

The TMDL document will be available on the DEQ website the day of the meeting for public comment and review: <https://www.deq.virginia.gov/TMDLDataSearch/DraftReports.aspx>. The final public meeting on the development of these TMDLs will be held on Wednesday February 24, 2010. The Department of Environmental Quality (DEQ) and the Department of Conservation and Recreation (DCR) seek written and oral comments from interested persons on the development of Total Maximum Daily Loads (TMDLs) for the Spout Run watershed in

Clarke County. Spout Run was listed on the 1998 303(d) TMDL Priority List and Report as impaired due to violations of the State's water quality standard for bacteria and violations of the State's general (benthic) standard for aquatic life. The benthic and bacteria impairments on the South Fork Shenandoah extend for 3.7 miles from the confluence of Page Brook and Roseville Run downstream to the confluence with the Shenandoah River. In addition, Page Brook was listed on the 2004 303(d) TMDL Priority List and Report as impaired due to violations of the State's water quality standard for bacteria. This impairment extends for 8.78 miles from the headwaters downstream to the confluence with Roseville Run.

Section 303(d) of the Clean Water Act and Â§62.1-44.19:7.C of the Code of Virginia require DEQ to develop TMDLs for pollutants responsible for each impaired water contained in Virginia's 303(d) TMDL Priority List and Report.

The public comment period for the final public meeting and TMDL document will end on March 29, 2010. The public notice appears in the Virginia Register of Regulations on February 15, 2010. [Open Meeting]
